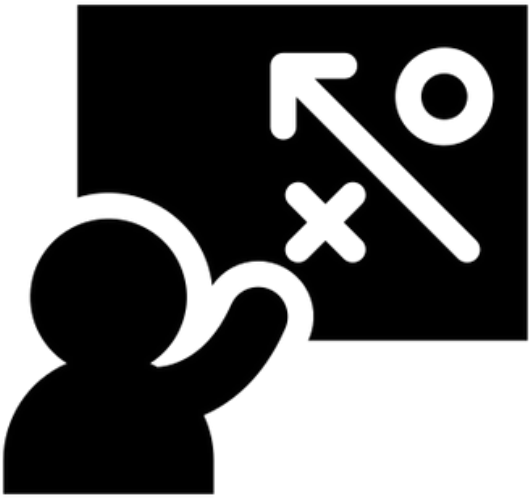
YOUR FOOTAGE ROADMAP

GET YOUR BEST CLIPS

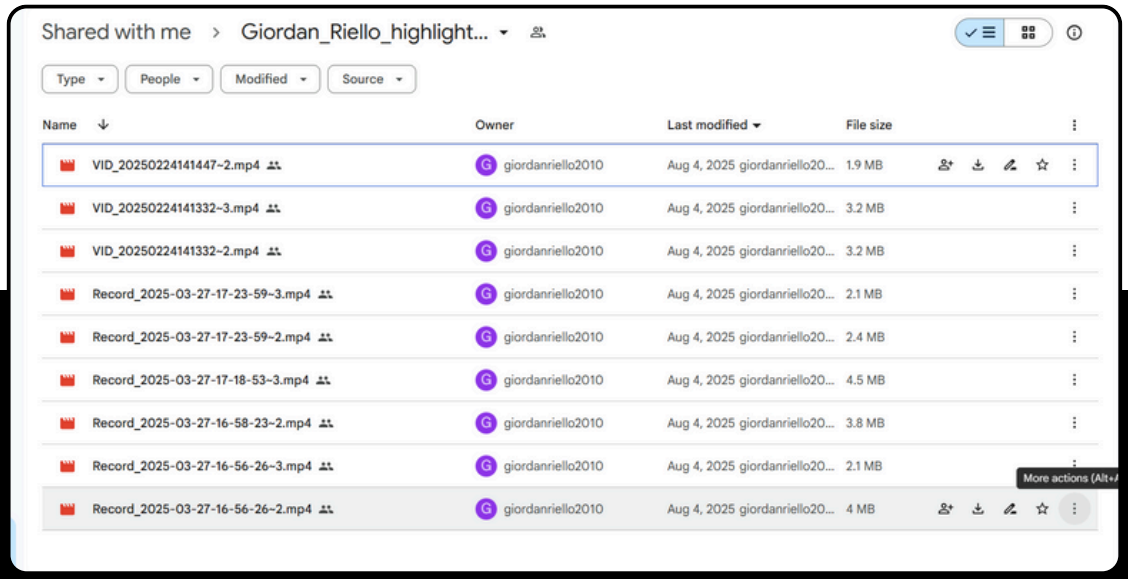


A PERSONALIZED GUIDE FROM

CKTRAINING PREMIUM

WHY BOTHER?

FOOTAGE SUBMISSION INSTRUCTIONS



YOU MUST COLLECT YOUR BEST MOMENTS. AND WHY IT'S SO VALUABLE? IT'S THE MOST POWERFUL WEAPON IF YOU WANT TRIALS — YOUR MATCH FOOTAGE. THIS IS WHAT SCOUTS WATCH BEFORE THEY EVEN READ YOUR NAME.

You collect the main clips for your highlight video from your best games.

You learn exactly what to record: angle, duration, type of play, and how to trim it for maximum effect.

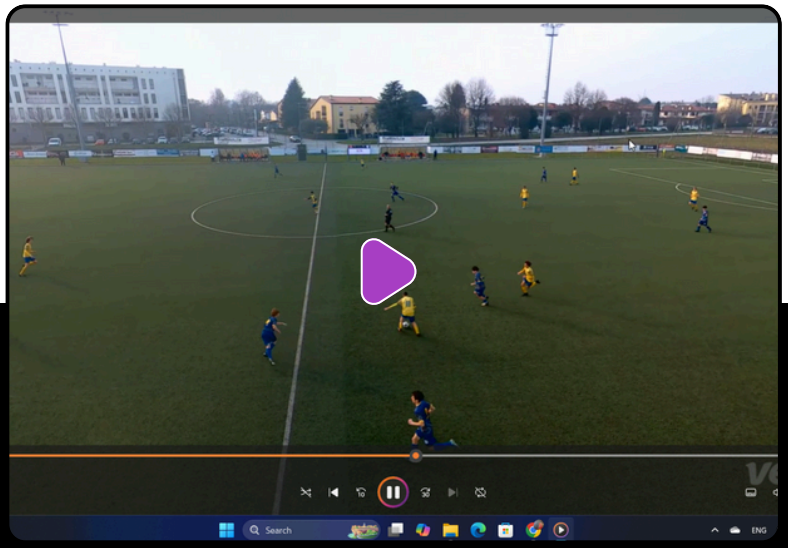
You organize your footage professionally (Google Drive, labeled clips)

You begin presenting yourself like a professional player.

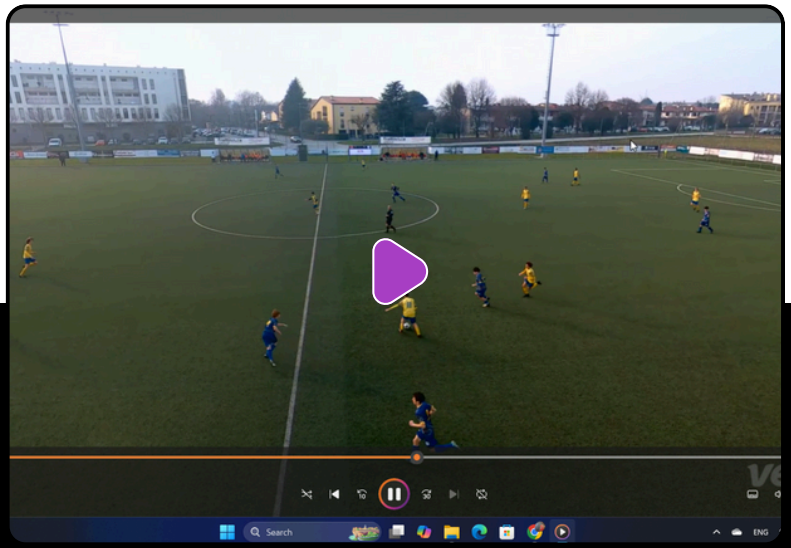
STEP 1

ONLY MATCH FOOTAGE (IMPORTANT)

FOOTAGE EXAMPLE 1 ↓



FOOTAGE EXAMPLE 2 ↓



1. VIDEOS FROM REAL GAMES YOU PLAYED (RECORD THE FULL GAME)
2. THE ABSOLUTE BEST GAMES YOU'VE HAD
3. NOT SHAKY OR DARK CLIPS
4. ABLE TO SEE YOUR FULL BODY AND SOME OF THE PITCH
5. NO MUSIC OR EFFECTS (YET)
6. YOUR CLIPS SHOULD BE HIGH QUALITY (SEE ABOVE ↑)

STEP 2

GOOD VS BAD CLIPS

Through your videos, you MUST show what makes you special – but first we must make sure that you even have right footage

SEND

- League matches
- Tournament games
- Full team 11v11 friendly games
- Camera Quality 1080

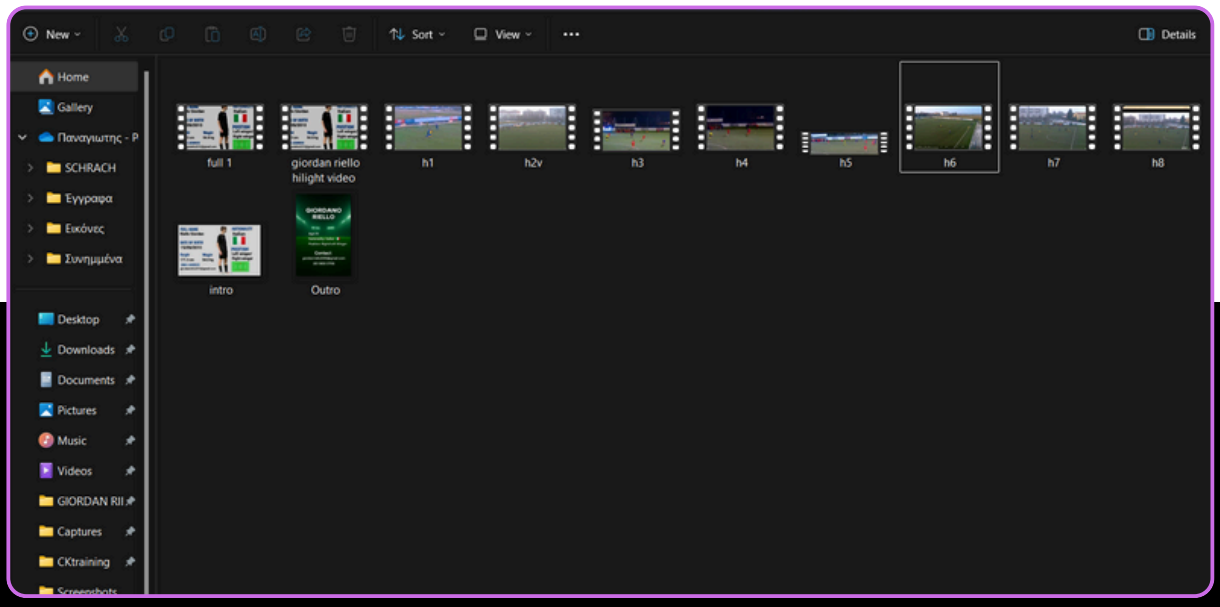
DON'TSEND

- Videos filmed too far
- Individual Training Drills
- Just Juggling etcl
- Edits With Filters

STEP 3

ACTIONS TO SHOW IN THE CLIPS

CLIPS GATHERING FOLDER EXAMPLE ↓



HAVE A SEPERATE FOLDER WHERE YOU'LL START GATHERING THR CLIPS

EG YOU HAVE FOLDER1 WHERE YOU PUT YOUR FULL GAME RECORDINGS AND FOLDER2 WHERE THE CLIPS YOU CUT WILL BE THERE

WHAT CLIPS TO GET

▼

IN THE "CLIPS" YOU GATHER INCLUDE:

When you're gathering your game footage, your goal is to **show your best weapon.** Every player has something they're known for — it could be your passing vision, one-touch speed, aerial dominance, 1v1 defending, or dribbling through pressure.

THE BIG PICTURE:

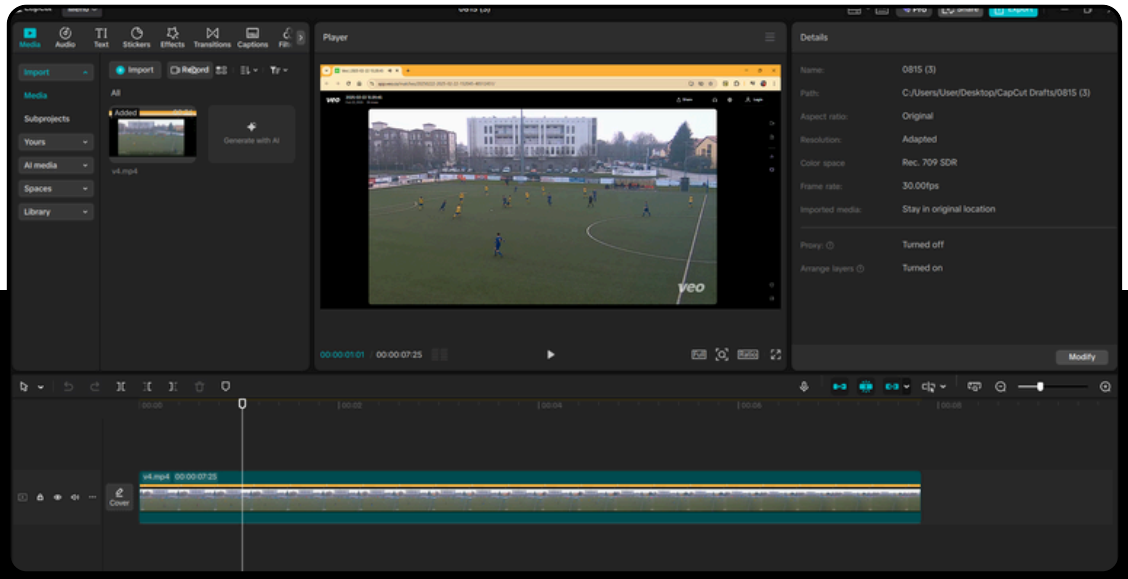
Your highlight clips need to **put that skill front and center.** Think of it as your personal signature — it's what scouts will remember about you.
A strong video doesn't just show random actions. It tells what kind of player you are. That's why it's so important to **choose clips that repeat and reinforce your strongest qualities.** If you're a fullback who wins every duel, we want to see it 5–6 times from different games. If you're a winger with great crossing — let's see that ball whip in over and over. Repetition builds belief. You got the point...

Send clips where you are doing things like:

- Passing & Vision: Through balls, switching the play
- Movement Off the Ball: Making smart runs or showing for a pass
- Defending: Tackling, intercepting, blocking
- Finishing: Scoring a goal, fast shot, volley
- Dribbling: Beating a defender, quick turn, skill
- Pressing / Hustle: Chasing, recovering, helping teammates

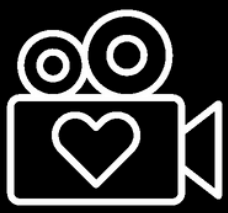
STEP 4

HOW DO YOU EDIT THE CLIPS



I SUGGEST YOU USE CAPCUT. THATS WHAT WE USE FOR THE PLAYERS WE WORK WITH. OF COURSE YOU EDIT FROM PC NOT PHONE

You Need **10-20 clips** with each clip showing a different skill (**double down** on the thing you think you are best at don't try to cover everything)



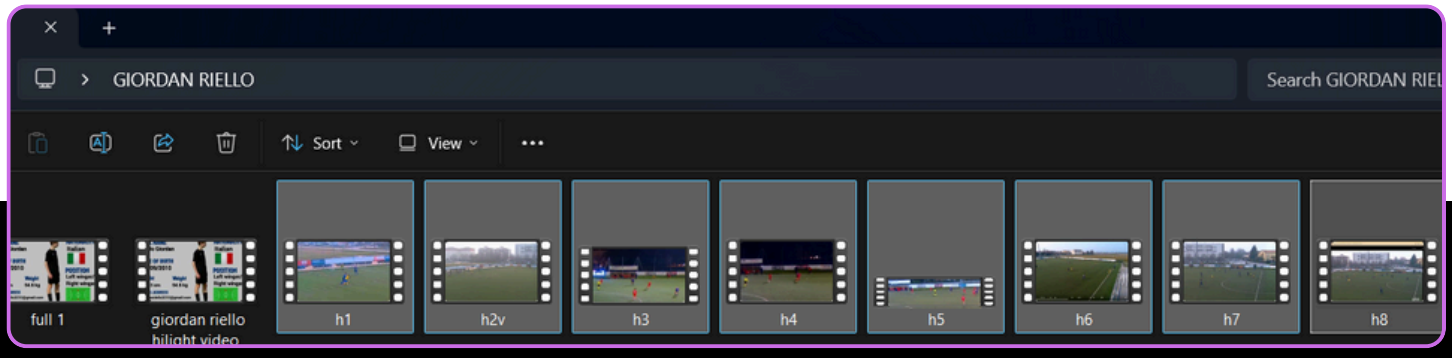
Each clip should be about **6 to 13 seconds** long. Start right before you get the ball

If you can't be seen clearly, use CapCut to **draw a circle around yourself.** Or an arrow

STEP 5

SAVING AND STORING THE CLIPS

CLIPS SAVING EXAMPLE ↓



Once you finish editing your clips in CapCut, **export each clip individually** in high resolution (1080p). Save them into your "Clips" folder — keep everything clean and organized. Make sure each file is named clearly (e.g. "1v1_defend.mp4" or "through_pass_1.mp4"). **Don't export the full highlight video yet,** just the raw individual clips — we'll take care of the full edit later.

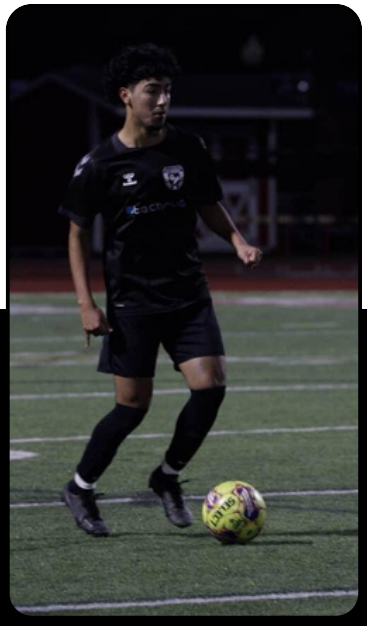
PRE-EXPORTING CHECKLIST:

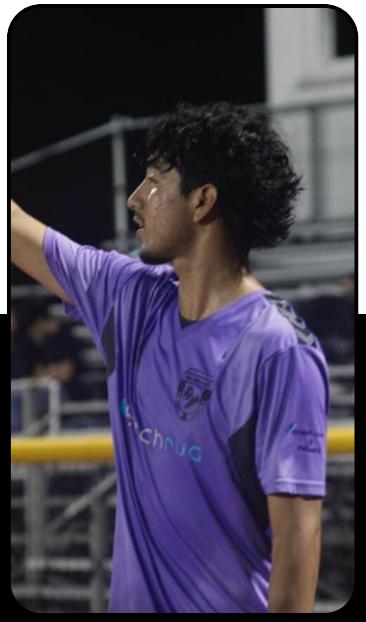
- Export each clip one by one, not all together
- Save in 1080p resolution
- Place them into your Clips folder
- Use clear names for each file (what the clip shows)

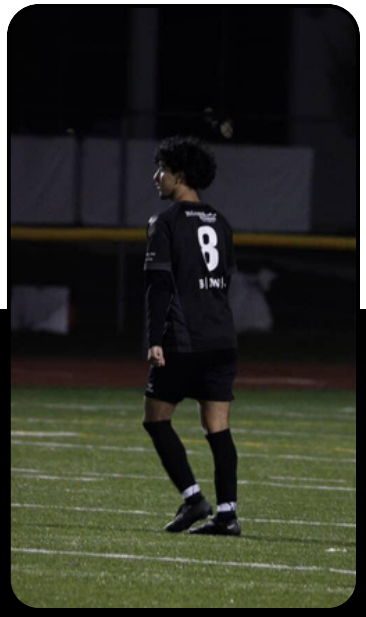
STEP 6

BEST PHOTOS OF YOU

You'll also need to prepare 6 of your best photos.
In game pics, duels, 1v1s etc







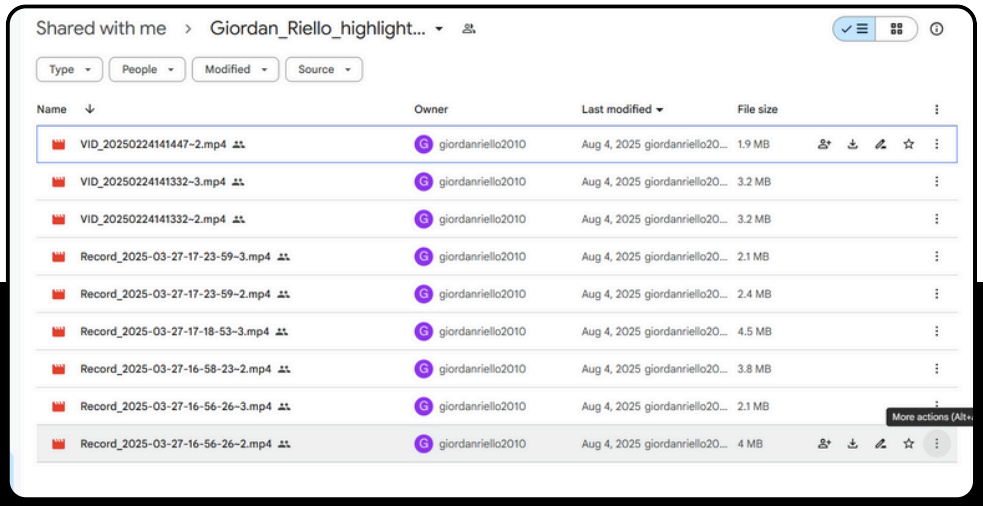
ABOVE I HAVE SOME FROM MY STUDENT JONNY. WE HELPED HIM GET A PROFESSIONAL COTRACT....BE LIKE JONNY

1. CLEAN SHIRT
2. IN-GAME ACTION
3. TRAINING PHOTO
4. HEADSHOT PIC
5. TEAM PHOTO
6. LIFESTYLE PHOTO

STEP 7

HOW TO SEND YOUR FOOTAGE

CLIPS IN GOOGLE DRIVE EXAMPLE ↓



STORE EVERYTHING IN GOOGLE DRIVE

INSTRUCTIONS

STEP 1: CREATE A GOOGLE DRIVE FOLDER

Go to https://drive.google.com and sign in with your email. Click the **"+ New"** button on the left, then select "Folder." Name the folder using this format:
Firstname_HighlightVideoClips
(Example: Kwame_HighlightVideoClips). This folder will be the main place where all your clips, images, and documents are kept together and organized.

STEP 2: UPLOAD ALL YOUR FILES INSIDE THE FOLDER

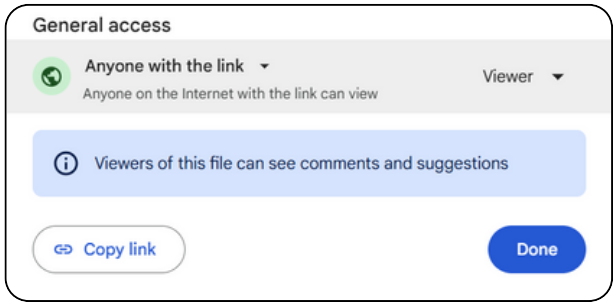
Inside your new folder, upload all the files we've asked you to prepare:

- **10–20 game clips** (named like: clip_1_dribble.mp4, clip_2_pass.mp4, etc.)
- **6 images** (game photos, etc.)
- **Completed CV** (Word or PDF version)

Make sure all videos are clear, steady, and labeled properly so we know what skill is being shown in each. Avoid clutter or random files—keep it clean and organized.

STEP 3: SHARE THE FOLDER WITH US

Once everything is inside the folder, right-click on the folder and choose "Share." Then click "Copy link" and under sharing settings, select:
"Anyone with the link can view."
Send that link to us via email or in the CKtraining platform. This makes your full file set instantly ready for us to build your CV and highlight video.



FINAL THOUGHTS

You've just completed one **of the most important steps in your football journey** — gathering all your top footage and visuals. This wasn't just about collecting random clips. You've organized your skills, highlighted your strongest moments, captured professional photos, and prepared a complete player package.

This folder is now your personal showcase, **the foundation** of your highlight video and CV. If you've followed the guide properly, you now have **everything needed** to present yourself like a professional.

Now comes the exciting part: turning that raw footage into **your final highlight video.** In the next section, we'll walk you through how to structure your clips, what order to place them in, how to add transitions, and how to make sure your final product grabs the attention of scouts and clubs **in the first 30 seconds.**

The hard part is done — now we make it shine.
